

**PS-1 Basic Presentation System**

Maland Presentations PS series of pre-engineered audiovisual systems are easily integrated in most conference spaces. These systems offer great functionality and ease of use, while reducing installation times and costs.

Just pick the appropriate system for you application and go!

The **PS1** is designed for small conference rooms and consists of an installed ceiling mounted XGA projector and manual projection screen, along with wall connections for VGA, Video, and associated audio signals. Audio is reproduced through the projector's internal loudspeaker.

**System Components**

<b>Projector</b>	3000 Lumens, XGA (1024 x 768 Pixels) Resolution, LCD	
<b>Screen</b>	Manual Wall/Ceiling Mounted (Non-Recessed) Projection Screen w/ Pull Cord and controlled screen return, Matte White Finish. Available sizes are 50 x 67", 57 x 77" and 60 x 80" (4:3 Aspect Ratio)	
<b>Control</b>	System Control is through Projector's supplied IR Remote	
<b>Connections</b>	Wall Plate (Either black or white) with VGA/Stereo Audio, Composite Video/Stereo Audio Jacks  12' VGA/Audio Cable	

Computer, Video, and Audio sources to be provided by client. Electrical Power to be installed by others. Costs assume cable run length of no more than 35' from source to projector location and that cable can be run above false ceiling.

**Cost: \$2499**

(Not Including taxes, transportation, or permit costs, where applicable)
