

PS-2 Room Presentation System

Maland Presentations PS series of pre-engineered audiovisual systems are easily integrated in most conference spaces. These systems offer great functionality and ease of use, while reducing installation times and costs.

Just pick the appropriate system for you application and go!

The **PS2** is designed for most medium sized conference rooms and consists of an installed ceiling mounted XGA projector and manual projection screen, along with wall connections for VGA, Video, and associated audio signals. Audio is reproduced through two ceiling loudspeakers. A wall control panel controls basic functions.

System Components

Projector - 3000 Lumens, XGA (1024 x 768 Pixels) Resolution, LCD

Screen - Manual Wall/Ceiling Mounted (Non-Recessed) Projection Screen w/ Pull Cord an controlled screen return, Matte White Finish. Available sizes are 50 x 67", 57 x 77" and 60 x 80" (4:3 Aspect Ratio)

Audio - Audio is reproduced by two in ceiling loudspeakers

Control - A wall mounted control button panel controls projector power, source switching, aspect ratio, and audio levels. Supports remote system monitoring via IP connection.

Connections - (1) Wall Plate (Either black or white) with VGA/ Stereo Audio, Composite Video/Stereo Audio Jacks and (1) Wall Plate w/ VGA/Audio connection

Computer, Video, and Audio sources to be provided by client. Electrical Power to be installed by others. Costs assume cable run length of no more than 35' from source to projector location and that cable can be run above false ceiling.

Cost: \$4995
 (Not Including taxes, transportation, or permit costs, where applicable)
